How this is calculated: Hours = Hubstaff tracked time (seconds ÷ 3600). Department/Team come from the ClickUp space; Billable vs Non-billable from the 'NB' task marker. Utilization = tracked ÷ (active days × 8h), capped at 100%. Activity = overall ÷ tracked. Productivity = billable share of tracked. Grade = 0.4×Utilization + 0.3×Productivity + 0.3×Task-completion.
